

June 21, 2016  
Portland Harbor EPA/State Directors' Monthly Meeting  
Facilitated by Bill Ross, Ross Strategic

Attendees:

Bill Ross, Ross Strategic  
Dennis McLerran, EPA  
Michelle Pirzadeh, EPA  
Cami Grandinetti, EPA  
Jim Woolford, EPA  
Cyndy Mackey, EPA  
Dana Stalcup, EPA  
Richard Whitman, Oregon Governor's Office  
Kevin Parrett, ODEQ

Notes:

- Discussed feedback heard since Proposed Plan was issued – news articles, general feedback from community and tribes, some PRPs saying data are stale. Will know more once public meetings begin. Discussed that there are some parts of FS and PP where clarifying information is needed. EPA will learn the themes at the public meetings and develop clarifying materials for the website.
- EPA will not attend the meetings that other organizations are sponsoring during the public comment period. Every interaction must be on the record. Individuals and organizations are encouraged to come to public meetings to get clarifying questions answered and to provide comments at the public meetings or other methods. EPA is holding 4 8.5 hour public meetings in Portland.
- EPA will meet internally to decide response to written requests for extension of public comment period and hopes to announce a decision by next week.
- EPA still anticipates completing ROD by the end of the year.
- EPA anticipates that LWG will file a dispute. It is due tomorrow.
- Discussed possible revised EPA/DEQ MOU post-ROD.
- PRPs might do some sampling – how would the data be used? EPA, DEQ and LWG will have a conversation about this.
- DEQ is working to get funding for PP and ROD work.
